

Thwing-Albert Instrument Company

More Than a Century of Testing Solutions

Thwing-Albert offers a full range of sample preparation tools.

The film/paper Strip Cutter is a manual cutter. Ideal for film, paper, foil and other thin materials.

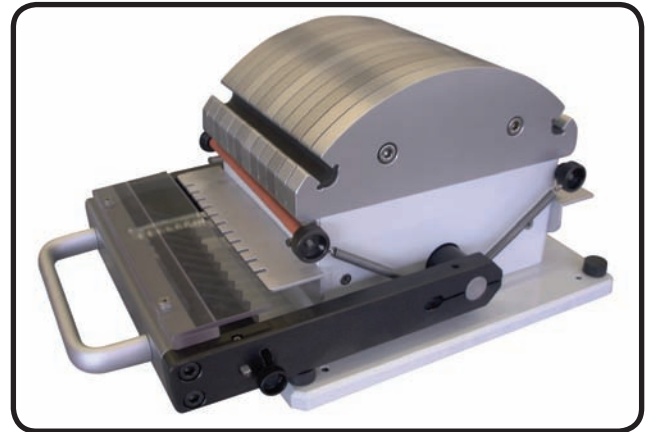

Cut up to 10 pieces in parallel strips with one step. These strips can be used for further evaluations including tensile strength in accordance with international standards for film, paper, and other thin materials.

Its sturdy design ensures the preparation of accurate test samples, critical for ensuring the integrity of your test data.

Technical Specifications

- Two-way cutting
- Adjustable connecting strip
- Adjustment over curved surface ensures a clamping free from creases
- Cutting movement over lever guidance
- Cutting angle adjustable
- Easy and save knife exchange
- Knife changing device included

Strip Cutter *Film/Paper*

Physical Specifications

Strip Length

Approximately 230 mm

Strip Width Available

10 mm, 15 mm, 25 mm, 1 in
or other widths upon request

Sample Thickness

±0.005 to 0.25 mm

Weight Strip Cutter

Approximately 29 kg

Dimension Strip Cutter

420 x 290 x 340 mm
(W x D x H)
