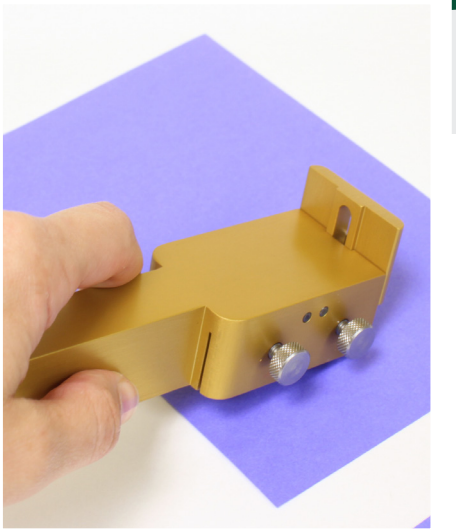
MTT Strip Cutter

Sample Cutter



Handheld Strip Sample Cutter

This manual strip cutter can quickly prepare samples of two sizes 1 inch (25.4 mm) or 15 mm for measuring material tensile, peel or seal strength. The cutting blade width is easily adjusted by releasing the blade and moving it to the appropriate slot for the 15 mm or 1 inch strips.

The MTT offers a sturdy mechanical design to ensure the preparation of accurate test samples, critical for the integrity of your test data. It is equipped with a safety locking system that shields the blades while not being used to prepare samples.

3.175 mm Blade Depth (Part #1765-0057):

- Two slots for blades to cut
  1 inch (25.4 mm) / 15 mm (0.59 in)
- Cut Size Accuracy:
  ±0.5% of width, in accordance with **ASTM F88**

9.5 mm Blade Depth (Part #1765-0064):

- Two slots for blades to cut
  1 inch (25.4 mm) / 15 mm (0.59 in)
- Cut size accuracy is not certified for ASTM F88
