FORMAX SQUARE SHEET MOLDS

C-100 / G-100

8”x 8” Sheet Mold / 12” x 12” Sheet Mold

The Formax™ 8” x 8” & 12” x 12” sheet molds ensure rapid, high quality formation of hand sheets. The unit is constructed of stainless steel for durable maintenance free operation. Individual forming wires are clamped by the deckle box allowing rapid exchange and easy handling of the wet sheet for couching, pressing and drying. The sheet mold is shipped complete with a stainless steel agitator, 24” drop leg, ball valve and sump tank ready for bench or sink installation. A T-fitting at the bottom of the drop leg permits connection to a white water return system or vacuum pump.

The FORMAX 8” x 8” (C-100)

- 8” x 8” Stainless Steel Deckle Box (11½ liter capacity)
- 316 Stainless Steel Backing Wire & Grid plate
